

**Dolomit - High performance Single Tower with 160W TDP**  
 German engineering, an all-black heatsink combined with the new 92mm Wing Boost 3 fan:  
 The Dolomit offers enough spare performance to efficiently cool the most demanding systems.

### High-end heat pipes & copper base plate

4 high-end heat pipes with a large contact area on the nickel-plated Copper base plate ensure good heat pick-up at the CPU. Therefore the heat can be conducted to the large area fin stack quickly and efficiently.

### All-black design

The heat sink is completely black and the stylish top fin rounds the design off. Further are all mounting parts kept black too.

### Asymmetrical heat sink

The asymmetrical design of the Dolomit heat sinks allows maximum freedom when choosing RAM modules. No matter how high the heat spreader of the module is, it will fit without any problems. 100% RAM compatibility on the sockets 1200, 115X und AM4.

### Thermal grease

The thermal grease has excellent thermal conductivity. Advantages: No hardening, silicone free and not electrically conductive.

### Specifications

#### Dolomit

Part number	84000000185
Dimensions	95x85x125 mm
Weight	588 g (incl. fan)
Heatpipes	4 x 6 mm
Fins	Aluminium
Baseplate	Copper
Compatibility AMD	AM4
Compatibility Intel	1700 (UpgradeKit), 1200, 115X, 20XX
Thermal Grease	Inclusive

### Specifications

#### Wing Boost 3

Dimensions	92x92x25 mm
Rated Voltage	12 VDC
Voltage Range	7 - 13,2 VDC
Bearing	Hydraulic Bearing
Fan Connector	4-Pin PWM
Airflow	65,4 m³/h
Speed	500 - 2200 RPM
Noise	23,8 dB(A)
Pressure	1,92 mm H2O
Rated Current	0,25 A
Input Power	3 W

### Wing Boost 3

Uncompromising performance and quiet operation at the same time. The 92 mm Wing Boost 3 expands the multi award-winning Wing Boost 3 premium fan family. It delivers an extremely high static pressure.

### Upgradable fan configuration

If even more performance is required, the kit contains additional fan clips. This allows the mounting of an additional 92mm fan on the back of the heat sink, increasing the cooling performance even further.

### German Engineering

A perfect balancing act between performance and compatibility was achieved through intelligent material selection and a new Rock Mount 3 mounting system.

### Compatibility

The enclosed mounting material allows secure installation on the following sockets:  
 Intel® LGA: 1700 (UpgradeKit), 1200, 1150, 1151, 1155, 1156, 2066, 2011-v3, 2011  
 AMD: AM5, AM4
