

HIMALAYA II

Specifications

Heatsink Specifications

Part number	84000000097
Dimensions	146 x 80 x 170 mm (incl. fan)
Weight	842 gr. (incl. fan)

Fan Specifications

Dimensions	140 Ø x 25 mm
Operating Voltage	12 VDC
Speed (@ 12 VDC)	1200 rpm
Airflow	108 m ³ / h
Bearing	HD - Bearing (Hydraulic Bearing)
Auto Restart	Yes
PWM Function	Yes

Accessories

- Mounting material for Intel:
775 / 115X / 1366 / 2011
- Mounting material for AMD:
AM 2 / AM 2+ / AM 3 / AM 3+ / FM1
- Permafrost
- 4 x Wire Clip
- 1 x Manual

Key Features

- Slim-Design heatsink
- 6 high performance heatpipes
- Completely shiny nickle plated
- Convex coldplate
- 140 mm premium fan
- Permafrost high performance thermal compound
- User-friendly and safe mounting system

Logistical Data

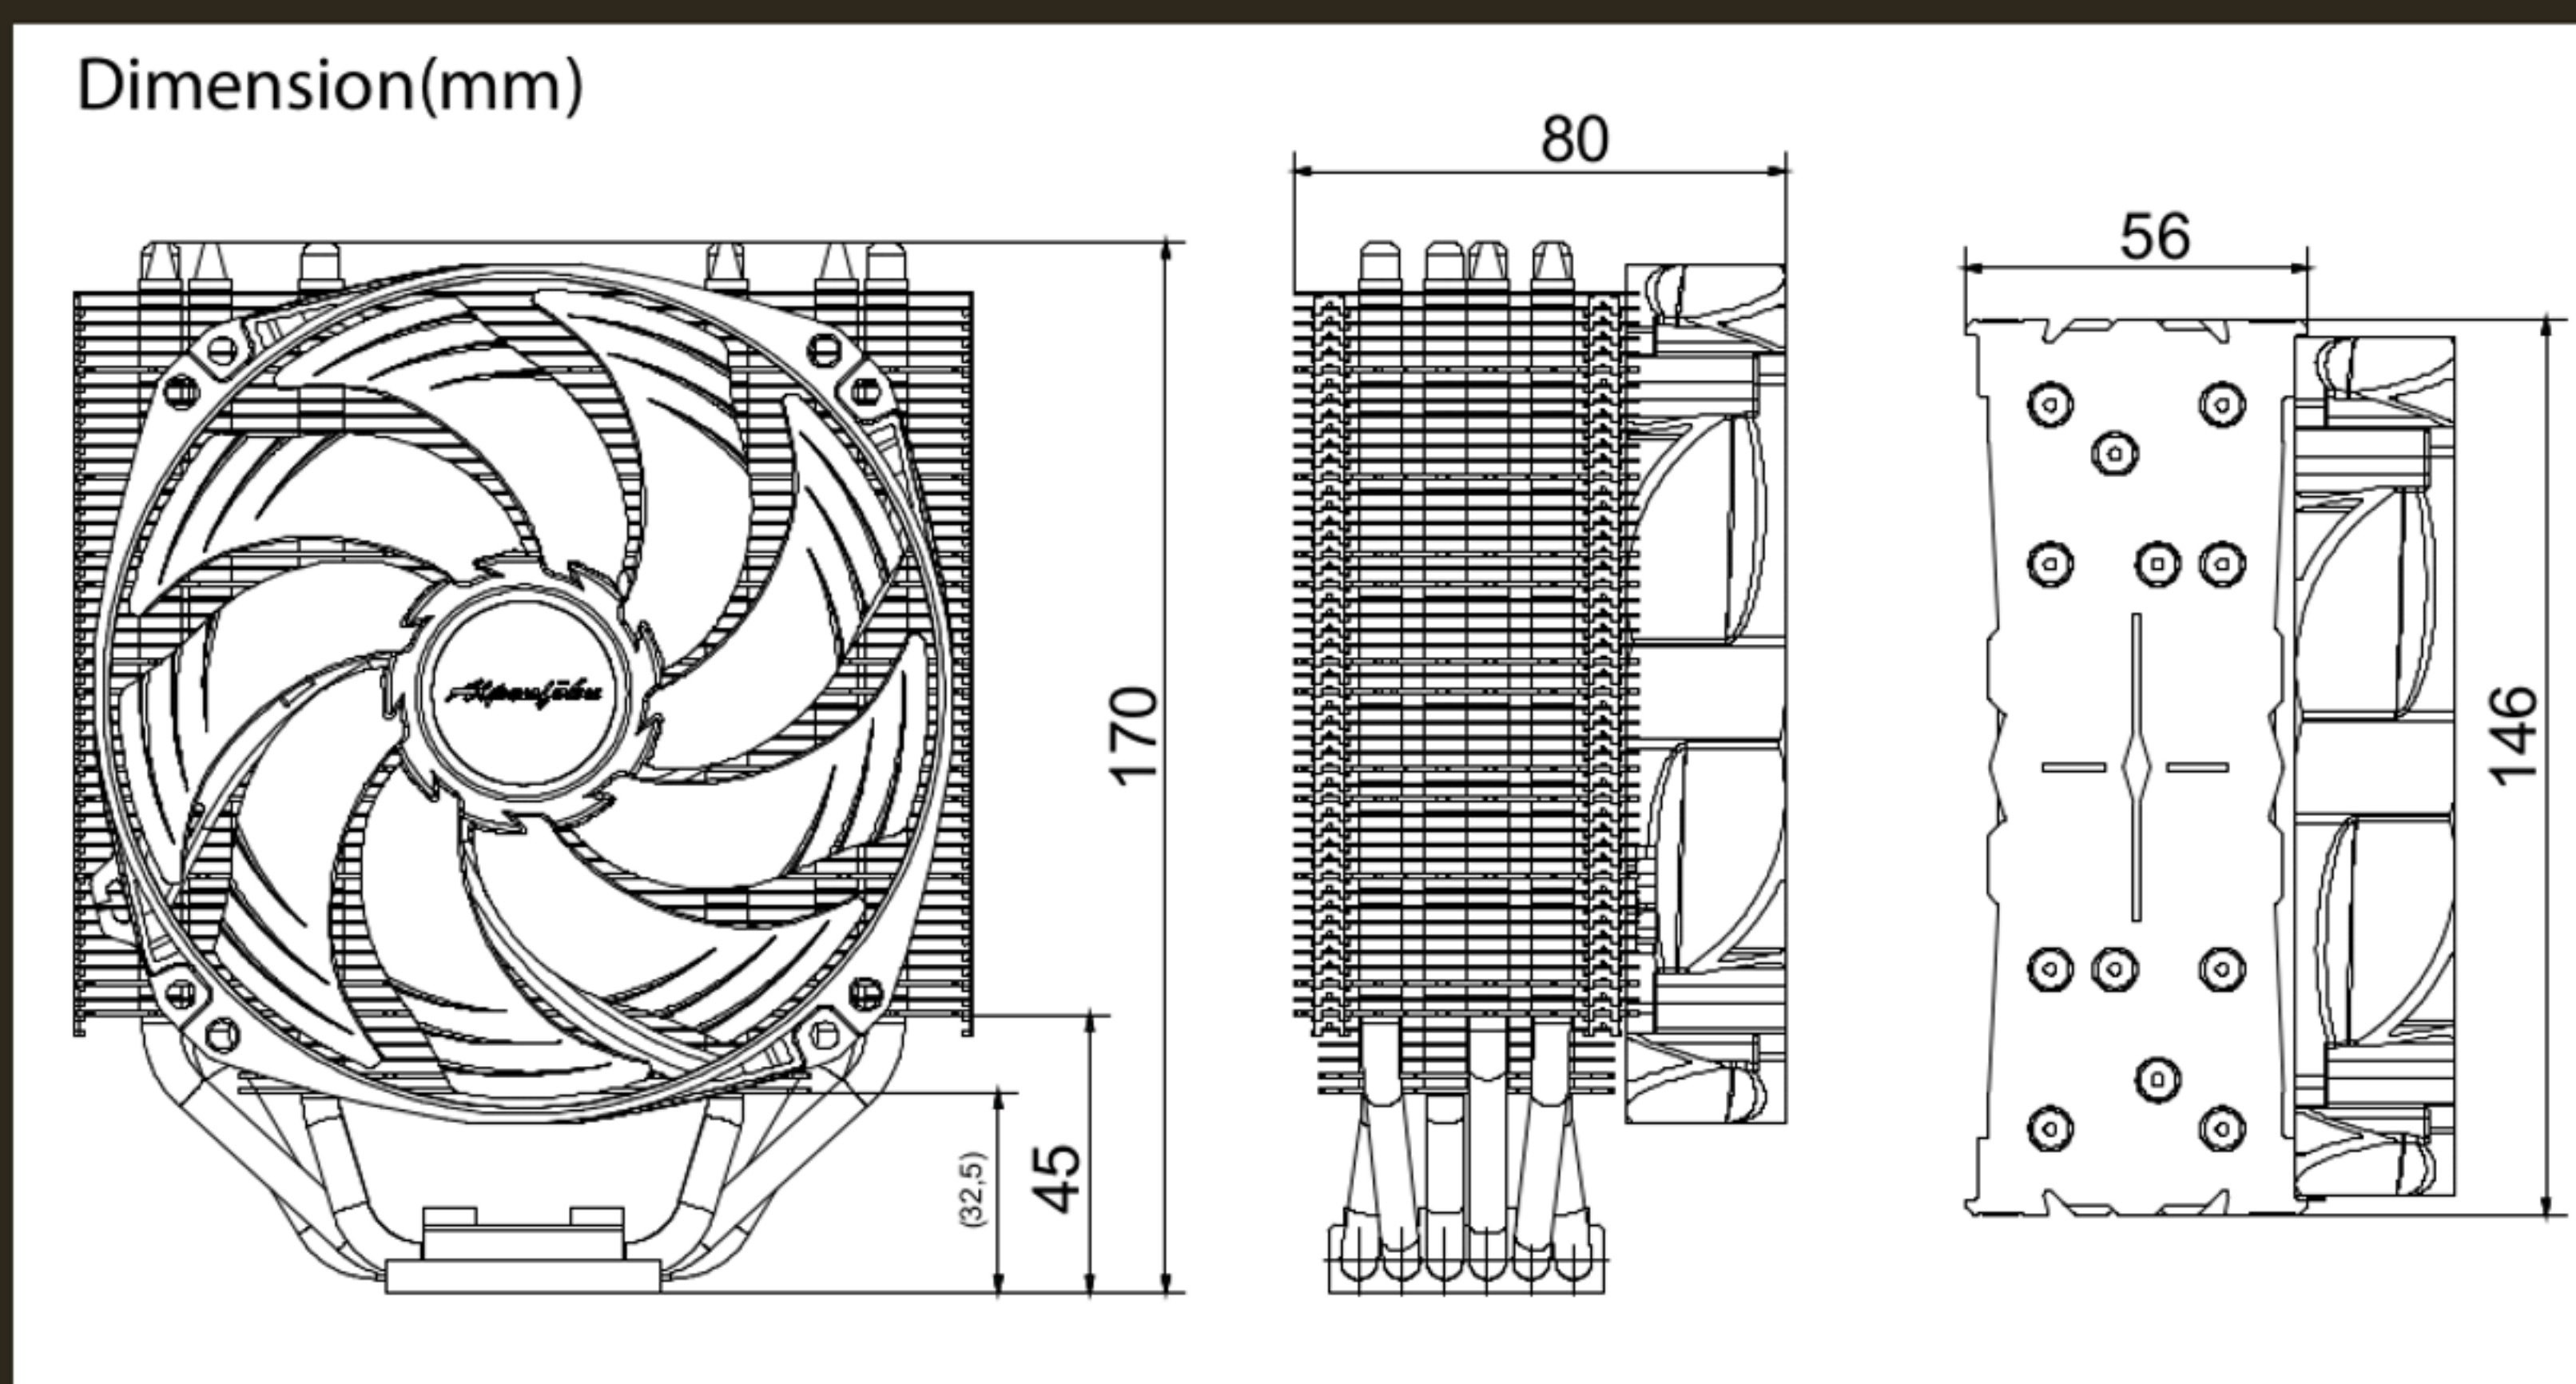

Name	Himalaya 2
EAN-No.	4250280395921
RRP	49,90 €
Packing unit	8 piece/carton

Alpenföhn® Himalaya 2 – 6 pipes for a Himalaya

Ultimate performance, ultra low noise and a completely new designed convex coldplate... With the Himalaya 2 the engineers of Alpenfoehn introduce their strongest slim-tower heatsink for more compatibility in your system.

The ideal performance of the Himalaya 2 is ensured by using the new 140mm WingBoost2 premium fan that come with the cooler. With the new aerodynamically revised s-shaped wing geometry and the new WingBoost's we both could increase the airflow as well as improve the static pressure at lower noise.

Minimum Case Requirements

To make sure that the Himalaya 2 fit in your case please measure the distance from the top panel. If this distance is bigger than the height of the cooler +30 mm it should be no problem to install the Himalaya 2.
